

*Certification*

## FRC Fiber Material Certification

### **MATERIAL REQUIREMENTS:**

FRC Fiber Limited Company d.b.a "FRC INDUSTRIES" hereby certifies that our MATRIX Performance Concrete Fibers are made of 100% homopolymer virgin polypropylene resin containing no reprocessed olefin materials, and are specifically designed and manufactured for use in concrete and mortar applications, in compliance with building codes and ASTM C-1116-97 "Standard specifications for fiber-reinforced concrete and shotcrete"

### **PERFORMANCE REQUIREMENTS:**

We further certify that concrete test specimens have been evaluated by independent testing laboratories, and have met or exceeded the specified performance requirements as defined by the *1997 Uniform Building Code* for controlling plastic cracking of reinforced concrete and structural plain concrete.
